I don't play many turn based games, only played XCOM and Wasteland 2, this game has great animations and a cool art style with some awesome music, although 8 hours in my save was chewed up but I have no problem playing it over again :). The story is good and some very cool characters as well, for 15\$ it's worth buying although I'd price it a bit higher. 10/10. So I was running along the side of the side of the church with my good friend Johnson, taking out jerries left and right. We eventually get to a jeep and began to reload. Johnson tells me that he is terrified and wants to leave the battle. I tell him deserting is not an option and that he would get shot for that. Just as I finish saying that a bullet passes through Johnson's abdomen, Johnson starts screaming, "I'm hit! I'm Wounded!" I then watched in horror as blood spilled from his wound and Johnson screaming, "I want to go home!" over and over. I realized he wasn't going to make it. As his eyes rolled back into his head, I closed his eyes and said, "Sorry..." and ran off to continue the fight. I survived that day, but not without the memory of my best friend Johnson dying right next to me.

That was my first game of HotW. The only words I can use to describe it is: Scary Realistic. RIP Johnson 1924-1943. If you enjoy Point n Click games you MAY like this game

if you don't enjoy Point n Click games you will NOT like this game

It does have some charm but does also lack in many areas so even the most hardened fan may not even like this title I personally didn't mind it as I got it cheap and was well worth the odd pound I paid

<https://www.youtube.com/watch?v=hEvWUF6GvPk>. I hope you like looking for stuff in some places a lot of times. I wasn't sure if I liked doing that so I tried this, it being free and all, and howdy I had a nice time looking for the things.

[I tried another free one with puzzles but I am too stupid for puzzles, not a joke I actually am, so this was better.](#)

[It would be nice if someone could help this village of people learn to look after their stuff better. I only played it for like an hour and change but it was staggering how many things they misplaced. Maybe they should keep a little journal saying where they last put their nest or bellows or statue of a samurai or bit of coral, that would make things a lot better for them.](#)

[It seems like this is pretty playable without any IAP's unless you want to play for several hours straight but come on man, don't you have some chores? Go rake up the leaves ya dingus.](#)

[All in all I had a nice relaxing time with this game and for no amount of dollars, which is my current budget for games, it is oh so right.](#)

[7/7 misplaced oriental relics, would recommend.. Can you guys done make this game multiplayer so I can play online with friends?](#)

Do not forget to eat, sleep and work while you're observing the monkeys! I died of hunger in the 2nd day and that was unfortunate.. Thanks to the developers for the great game! I liked this game with its dynamics and combat system! I hope that the continuation of this game will be released in the future!. If you grew up in the mid-90s when Sega Rally Championship was *the arcade racer to play then this pack is worth it for the Celica alone. It's everything I wanted and more. As with the Quattro S1 E2, the Celica is perfectly suited for tearing around Trento Bondone and you'll probably finish with your face aching from the stupid grin you've held for minutes on end.*

The other cars in the pack are a pleasant bonus. I was hoping for a new laser scanned track in the DLC following Porsche Pack 3 (as fictional tracks don't interest me) but you get a lot for your money with the Ready To Race Pack.

*Now I'm just hoping the next DLC will deliver a new brand to the AC lineup *cough* Lancia *cough*. <(^_^<). When you buy this just kill yourself pls don't buy this it's SHEIT*

10\10 ign i don't know why. Feels unfinished, confusing to play, and little to no players online.. Absolutely the best game soundtrack I've ever heard. I like this game. Great route! Great Stocks! Nice buildings! I recommend it! Some bugs have been found at the release and they have been fixed right after! Thanks! :). 10\10 would cthulhu again
